

CORE-LUBE™

Core Barrel Lubricant

Description CORE-LUBE™ natural, linseed-based soft soap is used as a core barrel lubricant on diamond core drills.

Applications/Functions

- Can facilitate the core sliding into the inner tube
- Can lubricate the core lifter
- Can minimize wear on the inner tube
- Can be used to formulate a non-polluting water-based solution for cleaning inner tube components and rig equipment

Advantages

- Helps improve core recovery
- Helps extend length of core run in broken ground
- Helps lengthen useable life of downhole wireline components

Recommended Treatment

As aid in core recovery

A handful or saturated swab of CORE-LUBE lubricant may be smeared inside the bottom of the inner tube before it is inserted into the drill rods. Also, a liberal amount may be applied to the core lifter parts.

As a cleaning solution for drill rig components

Mix one quart of CORE-LUBE lubricant with 50 gallons of water or 5 liters of CORE-LUBE lubricant per m³ of water.

Packaging

CORE-LUBE lubricant is packaged in 25-lb (11.4 kg) resealable plastic pails with wire bail handles.

Availability

CORE-LUBE lubricant can be purchased through any Baroid Industrial Drilling Products Retailer. To locate the Baroid IDP retailer nearest you contact the Customer Service Department in Houston or your area IDP Sales Representative.
